

CHANDRAPRAKASH SHIVHARE

Senior Full Stack Ruby on Rails Developer | Reactjs +91-8120682922 |
cpshivhare101@gmail.com | Indore, Madhya Pradesh [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Accomplished Senior Full Stack Ruby on Rails Developer with 12 years of progressive experience building scalable web applications and APIs across diverse industries including E-Commerce, Healthcare, and Automation. Proven expertise in architecting complex systems, optimizing performance for large-scale deployments, and leading cross-functional teams. Skilled at translating business requirements into robust technical solutions while maintaining code quality and best practices. Strong track record of delivering high-impact projects that drive business value and improve system reliability.

CORE COMPETENCIES

Backend Development: Ruby on Rails (6.1+), RESTful API Design, GraphQL, Microservices Architecture, Service-Oriented Architecture, Event-Driven Architecture

Database & Performance: PostgreSQL, MySQL, MongoDB, Query Optimization, N+1 Query Prevention, Redis Caching, Database Indexing, Performance Profiling

DevOps & Infrastructure: Docker, Kubernetes, AWS (EC2, S3, RDS, Lambda), CI/CD Pipelines (GitHub Actions, Jenkins), DigitalOcean, Heroku, Zero-Downtime Deployments

Frontend Technologies: React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design

Testing & Quality: RSpec, Capybara, Factory Bot, Test-Driven Development (TDD), Unit Testing, Integration Testing, Code Coverage Analysis

Advanced Topics: System Design, Scalability Architecture, Technical Leadership, Code Review, Mentoring, Agile/Scrum, Git, CI/CD Automation

PROFESSIONAL EXPERIENCE

Senior Ruby on Rails Developer

Technomatz IT solution Pvt Ltd. | Remote | Jan 2021 – Present (3+ years)

Led the development of scalable e-commerce and SaaS platforms serving thousands of concurrent users. Architected and implemented robust API endpoints with comprehensive error handling and authentication mechanisms. Collaborated closely with frontend developers to design and implement seamless integration between frontend and backend systems.

Architected and deployed a microservices-based e-commerce platform handling 10,000+ daily transactions with 99.9% uptime

Optimized database queries and implemented Redis caching, reducing API response times by 65% and improving user experience significantly

Led R&D initiatives for project enhancements and conducted performance optimization studies for large-scale deployments

Mentored a team of 5 junior developers on Rails best practices, code architecture, and system design principles

Implemented comprehensive CI/CD pipeline using GitHub Actions, reducing deployment time from 30 minutes to 5 minutes

Designed and implemented GraphQL API layer, enabling flexible client queries and reducing over-fetching by 40% **Technical Stack:** Ruby on Rails 7, PostgreSQL, Redis, Docker, Kubernetes, AWS, GraphQL, React.js, RSpec, GitHub Actions

Senior Ruby on Rails Developer

BestPeers Infosystems Pvt Ltd | Indore, Madhya Pradesh | Dec 2016 – Jan 2021 (4+ years) Developed and maintained multiple web applications for e-commerce and custom solutions, improving system architecture and code quality across the

organization. Integrated third-party APIs including payment gateways and shipping providers to enhance application capabilities.

Developed and maintained 8+ web applications with 50,000+ active users, ensuring 99.5% uptime and optimal performance

Integrated Ship-station and Easy-post APIs, automating shipping workflows and reducing manual processing time by 80%

Refactored legacy codebase, improving code maintainability and reducing technical debt by 35%

Conducted comprehensive code reviews and established best practices, resulting in 40% reduction in production bugs

Mentored a team of 3 developers, conducting code reviews and ensuring adherence to architectural standards

Implemented automated testing framework using RSpec and Capybara, achieving 85% code coverage **Technical Stack:** Ruby on Rails 5-6, MySQL, PostgreSQL, Redis, Docker, AWS, JavaScript, RSpec, Capybara, Jenkins

Ruby on Rails Developer

GrepRuby (TechRacers) | Indore, Madhya Pradesh | Oct 2015 – Dec 2016 (1+ year)
Contributed to the development of web applications across various domains, focusing on backend architecture and performance optimization. Collaborated with cross functional teams to deliver high-quality software solutions.

Developed RESTful APIs for multiple projects, serving 100,000+ monthly active users

Optimized database queries and implemented caching strategies, improving application performance by 50%

Collaborated with cross-functional teams to deliver high-quality software solutions on schedule

Participated in code reviews and contributed to establishing coding standards **Technical Stack:** Ruby on Rails 4-5, MySQL, JavaScript, Git, Agile Methodology

Ruby on Rails Developer

Vedik Cyber Technology Pvt Ltd | Indore, Madhya Pradesh | Jul 2014 – Oct 2015 (1+ year)

Developed full-stack web solutions for custom application development projects. Worked on both frontend and backend technologies to deliver complete solutions.

- Developed full-stack web applications using Rails and JavaScript, delivering 5+ projects on time

- Improved legacy codebases through refactoring and optimization, reducing technical debt

- Implemented new features and optimized application performance, resulting in 30% faster load times

- Collaborated with clients to understand requirements and deliver tailored solutions **Technical Stack:** Ruby on Rails 3-4, MySQL, JavaScript, HTML/CSS, Git

NOTABLE PROJECTS

YESPLS-PLATFORM | E-Commerce Platform

Developed a comprehensive e-commerce platform enabling users to set up online stores and sell products. The platform handles complex inventory management, order processing, and payment integration.

- Architected the entire backend system using Rails best practices and design patterns

- Implemented scalable database schema supporting millions of products and transactions

- Developed RESTful APIs with comprehensive authentication and authorization mechanisms

- Optimized database queries, reducing average response time from 800ms to 200ms

- Implemented Redis caching for frequently accessed data,

improving performance by 60%

Conducted thorough testing using RSpec and Capybara, achieving 90% code coverage

Collaborated with frontend developers to ensure seamless integration and optimal user experience **Technical Stack:** Ruby on Rails 7, PostgreSQL, Redis, Docker, AWS, React.js, GraphQL, RSpec

GEARBUBBLE | E-Commerce Application

Developed an e-commerce application providing facilities to sell various products with printed designs. Involved in enhancements, updates, and architecture development.

Performed database enhancements and optimizations, improving query performance by 45%

Developed and maintained robust backend architecture supporting 50,000+ active users

Implemented new features based on business requirements and user feedback Researched and evaluated technologies for implementing advanced features

Maintained code quality through regular code reviews and refactoring initiatives **Technical Stack:** Ruby on Rails 5-6, MySQL, Redis, JavaScript, Docker

UGMO | IoT Web Application

Developed a web application connected to wireless sensors measuring soil moisture, temperature, and salinity in real-time. The application processes and displays sensor data for agricultural monitoring.

Designed and implemented database architecture for handling real-time sensor data

Developed APIs for sensor data ingestion and retrieval

Implemented real-time data visualization and analytics features

Led a small team of 2 developers on feature development and optimization

Coordinated with the team for better understanding of the domain and requirements

Optimized data processing pipeline, reducing latency from 5 seconds to 1 second **Technical Stack:** Ruby on Rails 5, PostgreSQL, Redis, WebSockets, JavaScript, React.js

CARCHAT | Mobile Application Backend

Developed backend APIs for a mobile application enabling car drivers to send and receive messages anonymously using their license plates.

Designed and implemented RESTful APIs with comprehensive security measures

Coordinated with frontend developers to understand requirements and ensure seamless integration

Implemented real-time messaging features using WebSockets

Developed authentication and authorization mechanisms for secure communication **Technical Stack:** Ruby on Rails 5, PostgreSQL, WebSockets, RESTful APIs

EDUCATION

Master of Computer Applications (MCA) | Rajiv Gandhi Technical University, Bhopal | Aug 2011 – May 2014

Bachelor of Computer Applications (BCA) | Makhanlal Chaturvedi University, Indore | Aug 2008 – May 2011

TECHNICAL SKILLS

Languages: Ruby, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: Ruby on Rails (3-7), React.js, Redux,

Bootstrap **Databases:** PostgreSQL, MySQL, MongoDB, Redis

DevOps & Cloud: Docker, Kubernetes, AWS (EC2, S3, RDS, Lambda), DigitalOcean, Heroku

Tools & Platforms: Git, GitHub, GitHub Actions, Jenkins, JIRA, Slack, CircleCI

Testing Frameworks: RSpec, Capybara, Factory Bot, Selenium

APIs & Integrations: RESTful APIs, GraphQL, Stripe, PayPal, Ship-station, Easy post

Performance Tools: New Relic, Skylight, Rack-mini-profiler, PostgreSQL EXPLAIN

Methodologies: Agile/Scrum, Test-Driven Development (TDD), Code Review, System Design

LANGUAGES

Hindi: Native

English: Proficient (Professional Working Proficiency)

CERTIFICATIONS & ACHIEVEMENTS

12 Years of Professional Experience in Full Stack Ruby on Rails Development

Expert-Level Knowledge of Rails Architecture, Performance Optimization, and System Design

Leadership Experience mentoring and guiding junior developers

Continuous Learner staying updated with latest Rails ecosystem developments and best practices

ADDITIONAL INFORMATION

Open Source Contributions: Active contributor to Rails community and various open-source projects

Professional Interests: System Architecture, Performance Optimization, Microservices Design, Technical Leadership, Mentoring

Availability: Available for immediate opportunities with competitive compensation packages

References and detailed project information available upon request
